

SUBJECT INDEX

- Acoustic analysis, 45-66, 161-169
- Aphasia, 27-43, 177-200
- Articles, 153-160
- Bilingualism, 177-200
- Cantonese, 235-255
- Child
 - phonology, 1-25, 283-294
 - speech, 235-255
- Cleft palate, 109-125, 219-233
 - speech patterns in, 225-228
 - Sri Lankan Cleft Lip and Palate Project, 219-233
- Clicks, 283-294
- Clinical phonology, 1-25, 283-294
- Communicative
 - competence in children, 141-152
 - effectiveness, 45-66
 - flexibility, 141-152
- Contrastive stress, 45-66
- Crosslinguistic studies, 109-125, 247-249
- Derivation, 177-200
- Differential diagnosis, 235-255
- Disordered speech, 67-83
 - developmental disorder, 1-25
 - transcription of, 67-83
- Dutch, 27-43
- Dysarthria, 201-218
- Echolalia, 325
- Electropalatography, 201-218
- Eye fixation patterns, 179-181, 192-193
- Feature distinctions, 91-107
- Feedback,
 - auditory, 41
 - biofeedback, 202
 - EPG feedback, 201-218
- Finnish, 177-200
- Formant transitions, 45-66
- Grammatical subjects, 153-160
- Implicational relationships, 91-107
- Inflection, 177-200
- Intensity, 77-78
- Intonation, 74-77
- Intonational phrase, 30-31, 37-39
- Inventory
 - consonant, 295-320
 - phonetic, 91-107, 284-285, 295-320
- Jitter, 165-168
- Junction, 1-25
- Length, 72-74
- Morphological development, 153-160
- Morphology, 177-200
- Motor speech disorders, 45-66
- Palatal lift, 201-218
- Paradigmatic versus Syntagmatic analysis, 2
- Pathological voices acoustic characteristics of, 61-169
- Perseveration, 321-336
- Phonemic
 - contrast, 267-281
 - paraphasia, 27-43
- Phonetic
 - features, of sentence/turn
 - delimitation, 4-6
 - inventories, 91-107, 284-285, 295-320
 - transcription, 67-83
- Phonological
 - acquisition, 283-294, 267-281, 295-320
 - assessment, 1-25
 - disorder, 127-139, 235-255, 267-287, 283-294
 - domains, 30-31
 - regularity, 127-139
 - remediation, 91-107
- Phonology, 27-43, 127-139
 - child, 1-25, 283-294
- Phonosurgery, 161-169
- Pitch, 74-77
- Portuguese, 127-139
- Predicates, 153-160
- Psycholinguistic models, 21-23, 113-114, 177-200, 236
- Reiteration, 73-74
- Repetitiveness, 321-336
- Semantic impairment, 180
- Sentence focus, 6-8
- Sibilants, 283-294
- Single words versus connected speech, 1-2, 27
- Sociolinguistics, 141-152, 322
- Sonorant sustainment, 27-43
- Sonority, 136
- Specific language impairment, 153-160
- Spectral analysis, 267-281
- Speech
 - acquisition, 267-281
 - analysis, 219-233

- assessment, 109–125
 - rate, 77–78
- Stereotypy, 321–336
- Stress, 45–66, 74
- Style and register changes, 141–152
- Suprasegmentals, 67–83
- Swedish, 177–200
- Syllable
 - junction, 1–25
 - position, 28–30
- Therapy
 - in EPG feedback training, 204–214
 - voice therapy, 167–168
- Type-token ratio, 321–336
- Velar-alveolar contrast, 267–281
- Voice quality
 - conventions for transcribing, 78–79

INDEX OF AUTHORS

AHLSÉN, E., *see* Laine, M.

BALL, M. J., CODE, C., RAHILLY, J., and HAZLETT, D.: Non-segmental aspects of disordered speech: developments in transcription, 67

BASTIAANSE, R., GILBERS, D., and VAN DER LINDE, K.: A single case study of a rare phonemic deficit in aphasia, 27

BEDORE, L. M., LEONARD, L. B., and GANDOUR, J.: The substitution of a click for sibilants: a case study, 283

BLEILE, K. M., *see* Robb, M. P.

BRONSTED, K., GRUNWELL, P., HENNINGSSON, G., JANSONIUS, K., KARLING, J., MEIJER, M., ORDING, U., SELL, D., VERMEIJ-ZIEVERINK, E., and WYATT, R.: A phonetic framework for the cross-linguistic analysis of cleft palate speech, 109

CODE, C., *see* Ball, M. J.

DEJONCKERE, P. H., and WIENEKE, G. H.: Spectral cepstral and aperiodicity characteristics of pathological voices before and after phonosurgical treatment, 161

DINNSSEN, D. A., *see* Forrest, K.

DODD, B. J., *see* So, L. K. H.

ELBERT, M., *see* Forrest, K.

FORREST, K., WEISMER, G., ELBERT, M., and DINNSSEN, D. A.: Spectral analysis of target appropriate /t/ and /k/ produced by phonologically disordered and normally articulating children, 267

GANDOUR, J., *see* Bedore, L. M.

GILBERS, D., *see* Bastiaanse, R.

GOLDSTEIN, P., ZIEGLER, W., VOGEL, M., and HOOLE, P.: Combined palatal-lift and EPG-feedback therapy in dysarthria: a case study, 201

GRUNWELL, P., *see* Sell, D.

HARASTY, J., ROSENTHAL, J. B. M., REED, V. A., and JONES, A.: Communicative flexibility in children: its effect on judgements of communicative competence and communication disorder, 141

HAZLETT, D., *see* Ball, M. J.

HENNINGSSON, G., *see* Brondsted, K.

HOOLE, P., *see* Goldstein, P.

HYÖNÄ, J., *see* Laine, M.

JANSONIUS, K., *see* Brondsted, K.

JONES, A., *see* Harasty, J.

KARLING, J., *see* Brondsted, K.
